EDUCATION

Sir Syed University of Engineering and Technology — **Karachi, Sindh**
B.S. in Software Engineering — Expected Graduation, July 2027

St. Joseph College for Women — **Karachi, Sindh**
Intermediate in Computer Science — 2022

SKILLS

Full Stack Web Development | Machine Learning Basics | Python, Java, SQL | AI Tools Integration | Debugging | Problem Solving | MS Word, MS Excel | Social Media Marketing | Team Work & Collaboration

PROJECTS

S.E.M.S – Student Event Management System | React.js, Flask, PostgreSQL — Codebase

- Developed a full-stack web application for SSUET with secure registration number authentication, ticket booking with early bird discounts, QR-coded PDF tickets, admin dashboard with real-time revenue analytics and event/user/booking management, 6 category filters and responsive UI using Bootstrap and Chart.js.

AI Outfit Recommendation System | Python and Machine Learning — Codebase

- Developed an AI-based outfit recommendation system that suggests matching clothing combinations based on user preferences and color harmony.
  Implemented basic Machine Learning concepts and responsive web design to improve user experience.

Salon Management System | Java & SQLite — Codebase

- Developed a desktop-based salon management system for appointment booking, services management and receipt generation.
  Implemented GUI functionality and database integration to streamline salon operations.

The Coffee Website | HTML, CSS & JavaScript — Codebase

- Developed a themed Responsive website for a coffee shop.

Amazon Clone | HTML & CSS — Codebase

- Designed a clone of Amazon's interface to practice frontend development.

E-Commerce Website | HTML & CSS — Codebase

- Built an E-Commerce platform featuring product listings and a mock cart.

Simple Port Folio | HTML & CSS — Codebase

- Developed a responsive personal portfolio website to showcase projects and skills.

CodSoft Online Intern| Python

- Gained hands-on experience with Python libraries and frameworks, contributing to ongoing projects.

OTHER ACTIVITIES & CERTIFICATES

Shield Award – Salon Management System | SSPICE 2026

- Awarded a Shield for "Salon Management System" at the SED In-House Project Exhibition - Fall 2025 for outstanding dedication, innovation, and excellence in project development, showcasing exceptional research ability and strong problem-solving skills.

Research Paper Work – ICISCT 2026

- Presented the research paper **"Personalized Outfit Color Recommendation Using Machine Learning and Virtual Compatibility Analysis (Match Muse)"** as an Author and Paper Presenter at Sir Syed University of Engineering and Technology in collaboration with Karachi University. Received a certificate for contribution and presentation in the field of Artificial Intelligence and Machine Learning research.

Participant – NASA Competition

- Competed in a prestigious NASA competition, earning a certificate for participation and demonstrating strong teamwork and problem-solving skills.

Team Member – Management Team | SSUET-MUN at Sir Syed University

- Collaborated with a team to organize and manage MUN events, handling logistics, communications, and participant coordination.
